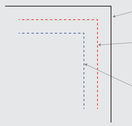
20ft Platinum Backlit Kit 18

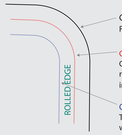
Measurements, and Helpful Hints

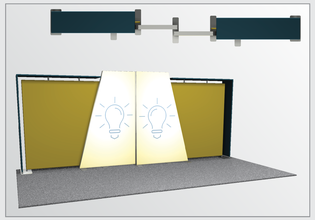
- InDesign PDF files are NOT accepted as printable files
- Send individual files for each section in CMYK Mode, 150DPI at full scale
- If saving as AI or PDF from Illustrator, make sure that you imbed fonts and images
- When saving, make sure you preserve the illustrator editing capabilities
- Do NOT save with crop Marks or bleed marks
- This file is set-up to scale at 50% of final output size.
- At final output size, file should contain 2" of bleed on all four sides.
- Due to the nature of stretch in textiles, there may be some minor distortion of the art.
- All text should be 2" in from edges and overlaps (not including bleed) to prevent stretch distortion of the art.
- If using multiple frames, the overlap of the front frame will cause a 4.5" obstruction of the back frame. We suggest adding an additional 2" of clearance from the edge of the front frame (a total of 6.5") for all text.
- Check for placement of any monitors, counters, or placards when designing your graphic lay-outs

Template is built at 50%

Inline Configuration







PL-BL-20-18

Front side graphic lay-out for all island and inline configurations.

Visual size — All critical elements, ie text, logos

Cut size — Edge borders not recommended

Bleed size — Extend backgrounds to line
