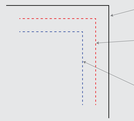
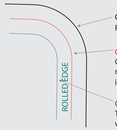
# 20ft Platinum Backlit Kit 20

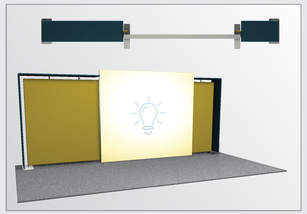
Measurements, and Helpful Hints

- InDesign PDF files are NOT accepted as printable files
- Send individual files for each section in CMYK Mode, 150DPI at full scale
- If saving as AI or PDF from Illustrator, make sure that you imbed fonts and images
- When saving, make sure you preserve the illustrator editing capabilities
- Do NOT save with crop Marks or bleed marks
- This file is set-up to scale at 50% of final output size.
- At final output size, file should contain 2" of bleed on all four sides.
- Due to the nature of stretch in textiles, there may be some minor distortion of the art.
- All text should be 2" in from edges and overlaps (not including bleed) to prevent stretch distortion of the art.
- If using multiple frames, the overlap of the front frame will cause a 4.5" obstruction of the back frame. We suggest adding an additional 2" of clearance from the edge of the front frame (a total of 6.5") for all text.
- Check for placement of any monitors, counters, or placards when designing your graphic lay-outs

**Template is built at 50%**







## Inline Configuration

PL-BL-20-20

**Front side** graphic lay-out for all island and inline configurations.

| | |
|---|---|
| Visual size | All critical elements, ie text, logos |
| Cut size | Edge borders not recommended |
| Bleed size | Extend backgrounds to line |
