FabLite Essential FL-E-20-05 Straight

FL-E-20-05-S

FabLite 20' Straight backwall incorporates a sleek, straight aluminum frame with a zipper pillowcase fabric graphic to create a sharp, bold backwall that clearly conveys who you are and what you do. Print on just one side or both sides of the graphic to maximize your message and brand exposure.

features and benefits:

- State-of-the-art 30mm aluminum tubing with heavy duty internal spigot connectors
- Easy to store and ship
- Quick to set up

- Kit includes: one frame, one dye-sublimated zipper pillowcase graphic, and 2 wheeled molded storage cases
- Lifetime hardware warranty against manufacturer defects

dimensions:

Connection Methods
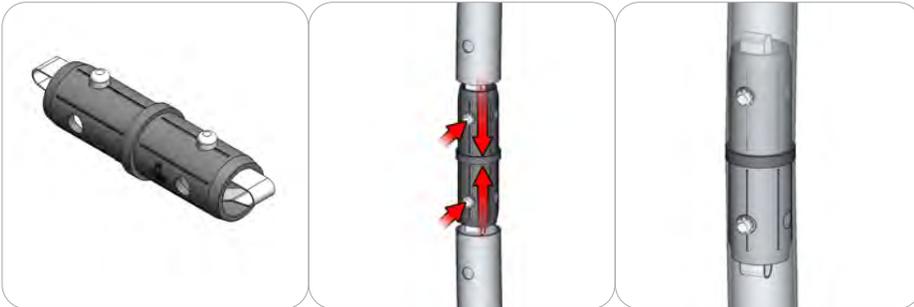

Connection Method 1: ES50-2W Spigot Connectors

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not over tighten.

Connection Method 2: ES50

For spigot connections, compress the unlocked connector and slide into the tube lock access hole. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not over tighten. Do not force the connection and be careful with the tube edges, they may be sharp. To disassemble, unlocked connector press the snap button and pull apart.

Connection Method 3: TC-30-S

Take the plastic connector and make sure the snap buttons are in proper position for the frame tube holes. Simply press the snap button with your thumb and carefully slide the tube onto the connector. The snap button should pop through. Some twisting may be necessary to assure the snap button has popped all the way through the tube hole. Do not force the connection and be careful with the tube edges, they may be sharp.

Connection Method 4: Stabilizing Plate

First, loosen the set screw that is on the PLT-BP-LN114, then attach the base plate with the LN114-SCRW insert. Once the base plate is in the desired position, fasten the set screw to hold the insert in place.

Connection Methods

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not over tighten.

For connections, Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Next, Slide 30mm tube down onto TC-30-D-ES50-S-ASY (pictured in the "included in your kit" section above), til snap into place.
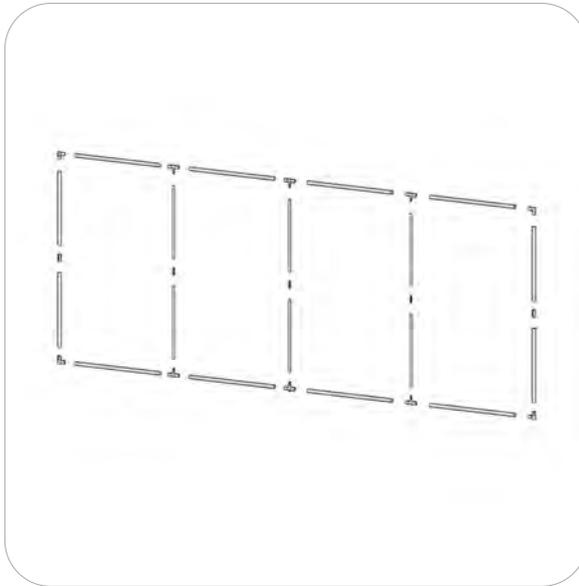

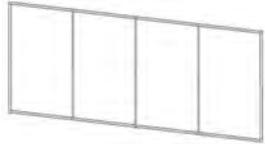

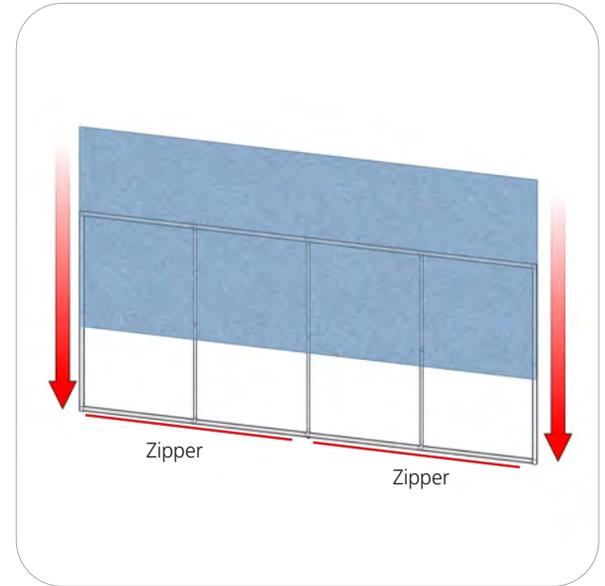

Kit Assembly

Step by Step

Step 1.

Gather the components to build the frame. Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method(s) 1, 2 and 3 for more details.
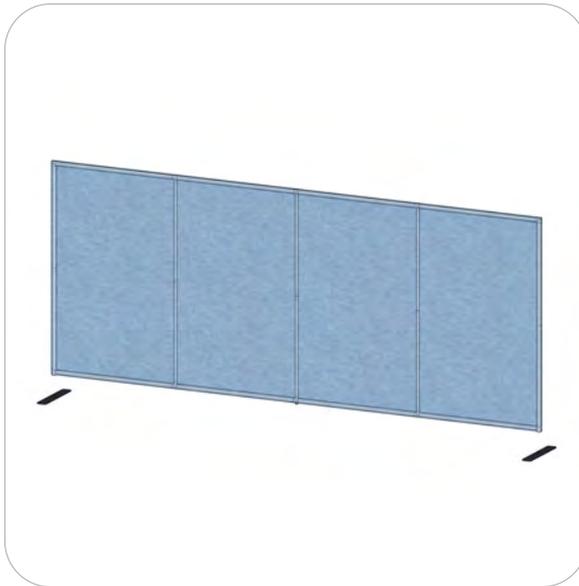

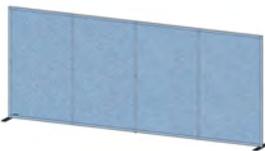

Step 2.

Pull the pillowcase graphic over the frame and zipper it closed at the bottom.

Zipper

Zipper

Step 3.

Gather the components to stand the frame. Use the Exploded View for part labels.

Reference Connection Method(s) 4 for more details.

Step 4.

Setup is complete.

Stand-off Counter with Shelves

FRAME A

Connection Methods

FabLite® structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specificmethodforeachconnectionpoint.

Connection Method 1:
ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 2:
Snap Buttons & Swage

Swage

Snap Buttons

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

Connection Method 3:
ES30-90B / ES30-I / ES30-C

ES30-90B

ES30-90B

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 4:
Tube Clamps

TCP

TC

TCH

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame's tubes in the clamp, be sure to lock securely, but do not overtighten.
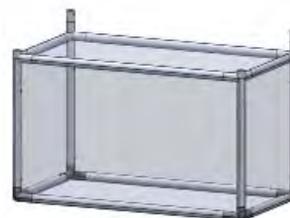

Kit Assembly

Step by Step

Step 1.

Gather the components necessary for assembling Frame A. Begin by only assembling the lower portion. Assemble in order according to the Labeling Diagram.

Please reference Connection Method 2 for more details.

Step 2.

Apply the **FLA**-07-G graphic using the preapplied velcro.

Step 3.

Locate your CT-FMLT-WL07-1 counter top. Install with the long tubes through the counter top holes.

Step 4.

Assemble the remainder of Frame A. Assemble in order according to the Labeling Diagram.

Please reference Connection Method 1 for more details.
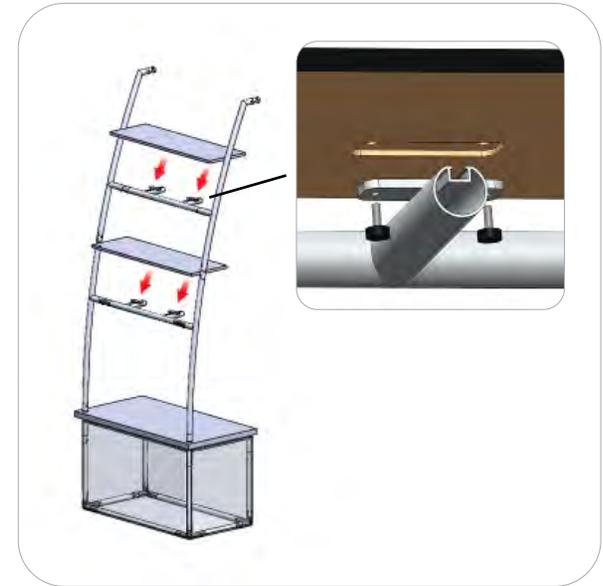

Kit Assembly

Step by Step

Step 5.

Unite the top half of Frame A with its bottom portion. Be sure to connect in the correct orientation.

Please reference Connection Method 2 for more details.

Step 6.

Locate your shelves. Install by allowing the plates on the tubes to fit into the routes beneath the shelf. Lock into place using the provided thumbscrews included with the shelf.

Step 7.

Clamp your ladder assembly to your backwall utilizing the preinstalled clamps.

Please reference Connection Method 4 for more details.
