

Tension Fabric Accessory - TFA-4ST01

TFA-4ST01

Mix and match the Tension Fabric line of towers to add architecture and drama to any event or interior space. Rectangular-shaped towers come in 12ft, 10ft and 8ft heights and 3ft square at the top and bottom. They combine the latest developments in fabric printed technology with aluminum tube frames to add dimension, decor and sculpture to any event, stage set, tradeshow booth or interior space. Formulate towers accommodate internal LED lighting to create a glowing effect.

features and benefits:

- State-of-the-art 30mm aluminum tube frame with snap button assembly
- Easy to store and ship
- Quick to set up
- Kit includes: one frame, one dye-sublimated zipper pillowcase graphic, and one wheeled storage case
- Lifetime hardware warranty against manufacturer defects

Kit Assembly

Step by Step

Step 1.

Gather the components to build Section 1 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.

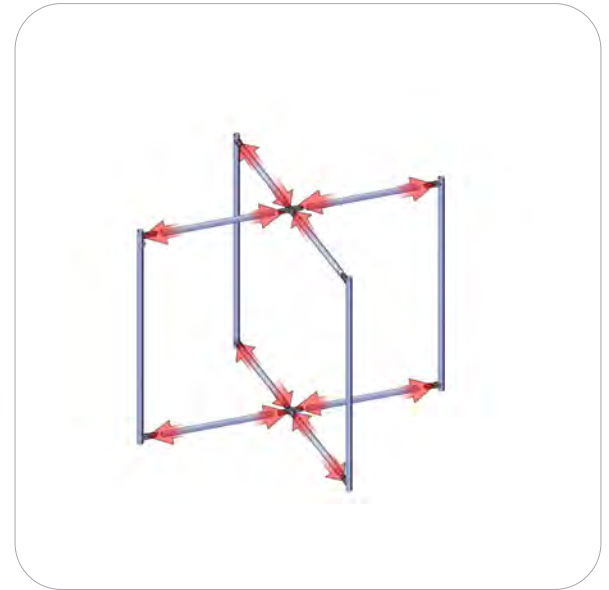

Reference Connection Methods 2 for more details.

Step 2.

Gather the components to build Section 2 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method 3 and 4 for more details.

Step 3.

Gather the components to build Section 3 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Methods 1, 2, and 3 for more details.

Step 4.

Lay the three sections flat on floor. Combine them to complete the tower frame assembly. Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method 1 and 2 for more details.

Kit Assembly

Step by Step

Step 5.

Leave the tower frame flat on floor. Undo the zipper pillow case and pull it over the top of the tower. Work the pillowcase down to the bottom of the frame carefully zip it up and then set the frame upright.

Step 6.

Setup complete

Connection Methods

Connection Method 1: TC-30-3W-R

First, press button to insert the cap into the extrusion. The button will snap in place. Repeat previous step until all four sides of bottom and top are assembled.

Connection Method 2: TC-30-X

First, connect curved spreader tubes (COL-T4) to side tubes (COL-T5). Continue connecting middle section of tube to bottom frame section. Finish frame assembly by connecting top corners and tubing. *Frame can be on side for assembly.

Connection Method 3: COL-01-T3/COL-01-T6

Slide the COL-T3 into the COL-T6 until it snaps in place. Repeat this for all 4 bottom COL-T2 sections.

Connection Method 4: SNAP BUTTONS

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.
